Dear Conference Attendees,

The Leadership of the AOASM has attempted to assimilate an attractive group of speakers and workshops to enhance your educational experience from an integrative sports medicine perspective.

Both mainstream and controversial topics are featured in an attempt to advance the mission of the American Osteopathic Academy of Sports Medicine. Osteopathic medicine embodies integrative medicine principles. Some say that MSK Ultrasound may become the virtual stethoscope of sports medicine. We have once again, arranged for a Pre-Conference program for beginners and more advanced physicians with the help and support of our Sonosite, Inc. sponsors. The participation of Fellows, Residents, and Students in case presentations and research is paramount to our effort.

We have past presidents of the AOASM and the AMSSM to help us gain future perspectives and direction. We have featured the leaders of Rejuvenating Biomedical Injections, Osteopathic Manipulative Medicine, and Lifestyle Medicine. Medical leadership from the Olympics, professional sporting ranks, and military medicine will share future visions and reflect on past successes and failures.

It is truly a great time to celebrate and advance our training and reconfirm the principles of Integrative Osteopathic Sports Medicine. The Historic Broadmoor hotel and surrounding mountains promises a nice getaway and refreshing change of venue for us all.

Thanks for your participation.

Sincerely,

Patrick F. Leary, D.O., FAOASM, FACSM, FACOFP
Program Chair, 2013 AOASM Clinical Conference

AOASM Career Fair

The AOASM will be hosting the 5th annual Career Fair at this year’s Clinical Conference in Colorado Springs. This will be a great opportunity for job seekers and employers alike! Employers have the opportunity to submit job postings for viewing and job seekers have the opportunity to submit their curriculum vitae (CV) for viewing. If requested, we will also provide an area for interviews on site, pending space availability.

How It Works
There is one price per job announcement of $50 USD. The job announcement is displayed at both the on-site Career Fair and for six months at the online Career Center. Fellowship announcements may also be submitted. There will be a separate viewing binder on site for Fellowships. (We can only accept AOA-Approved Sports Medicine Fellowships. ACGME Fellowships cannot be accepted for posting.) There is no charge for job seekers to submit their CV to the Career Fair on site. Bring several copies of your CV to the exhibit area and look for the on-site career booth for further instructions.

The On-Site Career Booth
The on-site Career booth is located in the exhibit area. The booth will be open during exhibit hours, March 6-8.

Employers do not have to be present. Announcements will be placed as hard copies in binders for viewing. There will be binders for Available Positions and Fellowships. Each job announcement will have a designated folder where job seekers will have the opportunity to confidentially place their CVs. Job seekers may also include their CVs in a separate binder, allowing employers to view them on site. Remember that the attendees at the AOASM conference include board-certified physicians, athletic trainers, residents, interns, and students. Another excellent way to effectively use your recruiting dollars is to rent a booth for your Company/Organization in the AOASM Exhibit Area during the conference. More and more employers are using this method to increase their visibility to prospective employees.

How to Participate
Please email your job announcements and contact information in a word document or in the body of your email to Brooke Miller, AOASM Meeting Planner at bmiller@reesgroupinc.com. The job posting will be live within seven business days. A confirmation email and an invoice will be sent to you after the position is posted.
